TABLE OF CONTENTS

01 WELCOME TO QUENSUS
Quensus is providing Intelligent water management and leak prevention systems to buildings across the Globe.Reducing risk, saving money.

02 OUR STORY
At Quensus, we combine our knowledge and love for what we do to give you solutions that keep your property safe and watertight.

03 OUR PRODUCTS
Quensus stands as a testament to unprecedented water savings, our products are revolutionising the industry and putting money back into the hands

04 DISCOVER LEAKNET
LeakNet Gen2, the pinnacle of innovation, transcends its award-winning predecessor. A powerful shield against leaks and water damage.

05 CASE STUDIES
Discover the latest case studies, highlighting the impact and diverse range of Quensus products.

06 WORKING WITH QUENSUS
With our commitment to excellence and attention to detail, we ensure a seamless and stress-free experience for clients looking to install Quensus Solutions.

Welcome to Quensus

Quensus offers an advanced and comprehensive intelligent water management solution at an enterprise level that leverages technology to address critical challenges within the industry.

Through state-of-the-art cloud computing technology, Quensus provides real-time water monitoring, budget reports, leak alerts, and automated shut-off capabilities for all building areas. Ensuring leak-free environments and achieving significant cost reductions through advanced deep learning capabilities.

TAILORED SOLUTIONS
TO PREVENT WATER RISK

Our Story

At Quensus, we combine our knowledge and love for what we do to give you solutions that keep your property safe and watertight for a long time. We make sure you're safe from water damage with the best tech out there! Our smart system can also save you money - maybe even cut your bill in half.

Our principles are the guiding force behind everything we do. From exceeding customer expectations to empowering our clients, maintaining a stance of perpetual improvement, and upholding unwavering trustworthiness—these values underpin our commitment to delivering excellence in every aspect of our enterprise water management solutions.

Exceed Customer Expectations

Never Complacent

Empower Customers

Trustworthy

“

*During my engineering PhD all those years ago, I envisioned more than a mere warning beep in an unattended property or plant room. I aimed to craft a **comprehensive flood prevention system** to protect our valuable assets and investments — **autonomous, disaster-averting, and independent.***

Dr Daniel Simmons, Quensus

BUILT ON QUALITY**

Quensus Products

The Quensus product range stands as a testament to unprecedented water management, leak prevention and all-round savings, revolutionising the industry and putting money back into the hands of our clients. By proactively addressing inefficiencies and preventing leaks, our clients have achieved substantial financial savings, with many reporting significantly reduced insurance and bill costs.

Generation Two
LeakNet

Presenting our second-generation Leaknet device, the successor to our award-winning solution. It delivers unparalleled protection against leaks and water damage by seamlessly connecting any pipe to WiFi, enabling real-time monitoring and control of water flow.

[Learn More](#)

FlowReporter App

Consolidate water data for nationwide stores, campuses, or apartments. Real-time monitoring, customisable alerts, and efficient leak detection. Immediate savings, anytime, anywhere.

[Learn More](#)

Leak Cable

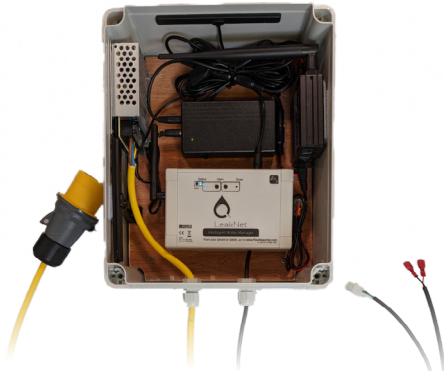

Leak cables can swiftly detect any water presence, instantly notifying all parties through FlowReporter, and have the capability to automatically shut off the water if necessary.

[Learn More](#)

Splash Sensors

Quick & Easy to install with a 15-year battery life, experience immediate notifications of water leaks with the added capability of automatic water shutoff if needed.

[Learn More](#)

SiteNet

Quensus provides peace of mind for Developers and Construction Companies with SiteNet, meeting CIREG requirements. Features include automated shut-off, alerts, monitoring, and backup power.

[Learn More](#)

LP Data Logger

Where power is not available, LeakNet LP (Low Power) is the ideal device for collecting remote meter readings via a cellular network. Cost-effective, quick installation, 15-minute meter readings, and 12-year battery life for remote monitoring.

WATER MANAGEMENT
WITH A PURPOSE

01 Genting Casino, Sheffield

LeakNet's installation revealed significant water wastage in individual washrooms, leading to recommendations that could save the casino £50,000 annually and potentially much more across all locations.

[Read More](#)

02 One Thames City

To avoid costly delays from water leaks at this high-rise residential development, the contractor implemented Quensus' leak prevention system, saving half the cost of a single previous claim.

[Read More](#)

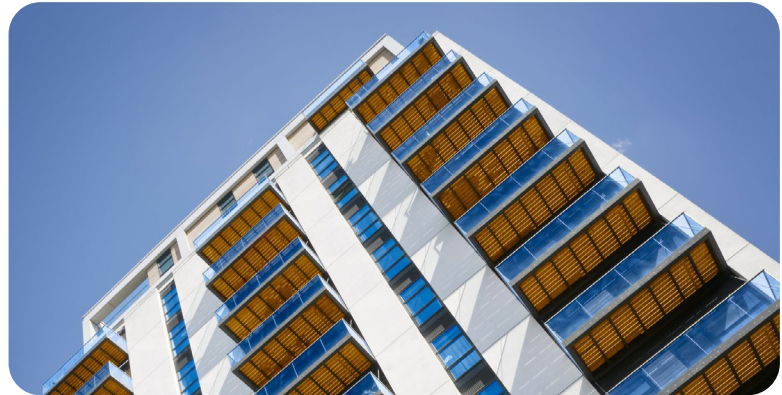

03 Euro Garages Service Station

This major motorway service station used Quensus' low-level water monitoring to identify inefficiencies and reduce costs.

[Learn More](#)

04 High-Rise Residential Development

After a crippling first year of a million pounds worth of claims, we were able to retrofit a complete leak prevention system in two highrise residential blocks for **half the cost of one claim.**

[Learn More](#)

05 Heathrow Airport

Heathrow Airport implemented Quensus across 400 point-of-use facilities, achieving a return on investment in under a year. The implementation resulted in a 26% reduction in water consumption and a 1.7T reduction in CO2 emissions per year.

[Learn More](#)

06 BSS Head Office

LeakNet's continuous monitoring detected a costly leak at this East Midlands office block, resulting in a 12% reduction in annual water bills.

[Learn More](#)

07 Travis Perkins

LeakNet alerted a Buckingham branch to a leak, preventing an estimated £10,000 in annual water wastage.

[Learn More](#)

08 Trent Barton Garage

LeakNet and urinal controls helped Trent Barton garage reduce water bills by 58% by identifying and fixing leaks.

[Learn More](#)

09 BSS Warehouse

Quensus identified a 6,000-liter daily water anomaly at this major distribution warehouse, resolving a costly leak issue.

[Learn More](#)

10 Chilwell Secondary School

LeakNet's real-time monitoring detected the failure of two valves, preventing 9,000 liters of daily water wastage.

[Learn More](#)

11 Pizza Hut

LeakNet was implemented, resulting in a 50% reduction in water consumption after a faulty water softener was identified and repaired. The company is now utilizing automatic reporting and implementing a default-off water plan for further efficiency.

[Learn More](#)

12 Notts County FC

One of the oldest UK Football Stadiums in the UK utilised Quensus' LeakNet solution to understand why their bills were increasing, leading to significant savings of £94,000 per year in addition to a water company rebate of £57,000.

Reduce Your Water Bill

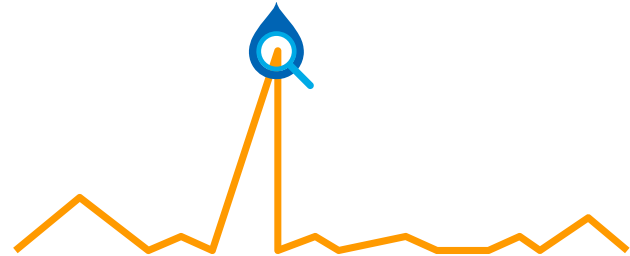

Stop leaks and lower your water bill by up to 60%!

6x Lower Chance of Claim

Water management devices decrease the chance of claims from 6 claims to 1 claim in every 10 construction sites.

Cut Insurance Premiums

Keep your building insurable and achieve huge reductions in Insurance Premiums and Deductibles by up to 50%.

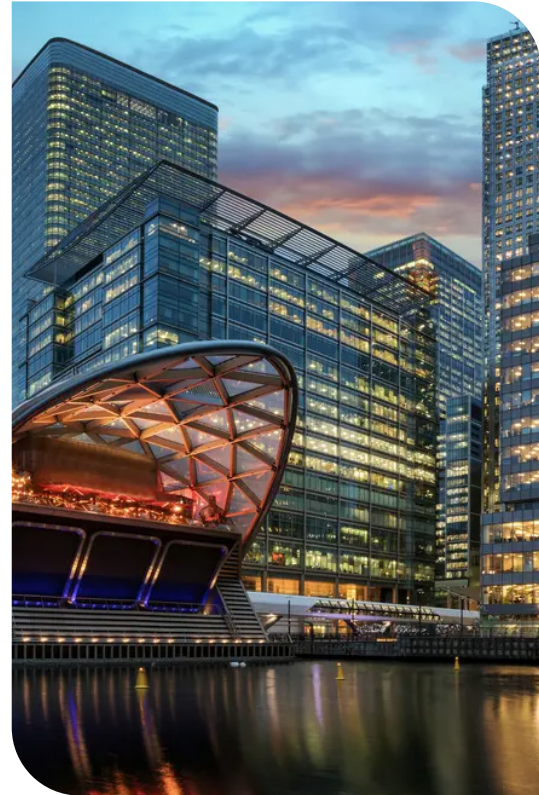

Prevent floods before they happen...

At the heart of our solution lies a sophisticated AI algorithm that continuously monitors water consumption data from sensors installed throughout the plumbing system. By analysing consumption patterns and identifying deviations from normal usage, the AI engine can pinpoint potential leaks with remarkable accuracy.

BREEAM Compliant

By integrating our BREEAM compliant water leak detection systems into your building's infrastructure, you can earn up to 3 BREEAM credits for water efficiency measures. Additionally, utilising our FlowReporter software and Water Management as a Service approach can further enhance your sustainability credentials, earning an additional 6 BREEAM credits.

Working with Quensus

Whether you have questions about our cutting-edge water management solutions or looking to explore collaboration opportunities, or are seeking assistance with our products, the Quensus team is here to assist.

We look forward to your enquiry.
